

# TEMPORARY OUTING GUIDELINES

Protecting our community during the current surge & holidays

**Please continue to:**

Practice Hand Hygiene

Wear a Mask

Social Distance 6 to 10 feet

## LOW RISK

- Less than 9 people at a location large enough to socially distance
- 100% wearing masks
- Examples:

Outdoor restaurant dining | Picnic at park | Shopping during senior hour | Outdoor church service | Outdoor walks  
Drive-through, take-out, or curbside pickups | Recurring medical treatment (e.g. dialysis, chemotherapy, specialized therapy)  
Visiting apartment of neighbor not under self-sheltering precautions | Doctor visits with empty waiting room and mask worn

### Required Precautions

**Self-shelter 72 hours and symptom free; monitor and report symptoms per screening checklist**

## MEDIUM RISK

- 9-49 people at a location
- Less than 100% wearing masks
- Examples:

Dentist | Indoor church service | Salon appointment | Indoor restaurant dining | Visiting apartment of neighbor with masks but not social distancing | Shopping at mall or store | Attending backyard barbecue

### Required Precautions

**Self-shelter 14 days in apartment; monitor and report symptoms per screening checklist**

## HIGH RISK

- 50+ people at a location
- Less than 100% wearing masks
- Examples:

Eating at a buffet | Doctor visit with others in the waiting room | Funeral | Plane travel | Cruises | Visit to family or friend's home  
Visiting apartment of neighbor without masks or social distancing | Visiting apartment of neighbor under precaution timeframe

### Required Precautions

**Self-shelter 14 days in apartment; monitor and report symptoms per screening checklist**
